NUT, SHEET SPRING (10/32)

NSN 5310-00-596-4274

P/N A6939-1032-493

Cage Nuts combine the best advantages of spring steel fasteners with the high strength of a multi-threaded nut. Cage Nuts snap readily into the holes. A Cage Nut application does not require special tools or skills, eliminating the need for special operations. The nut floats within the spring steel cage more than enough to offset normal hole misalignment.

The Spring Nuts are mostly used in the aviation industry and is a rare size to find; 10/32. Currently we have 50,000 spring nuts on stock at this size. Other sizes are also available upon request.
